

PARKING LOT PROCEDURES FOR STUDENTS AND PARENTS

1. All before school drop offs are to be made at the top of the parking lot. A line on the first row approximately 40 feet from the entrance marks the spot where you should stop to drop off a student in the morning. This allows for the continued flow of bus traffic and student vehicles. **PLEASE DO NOT BLOCK THE ENTRANCE. TRAFFIC ENTERS FROM 3 DIRECTIONS AND SHOULD NOT BE BACKED UP ON THE HIGHWAY EITHER IN THE MORNING OR AFTERNOON.**
2. Individuals picking up students in the afternoon should use the softball/soccer complex parking lot until 3:30. Please remain in your vehicle. All traffic will flow one way, counterclockwise. **No visitors or parents will be allowed in the student parking lot until after 3:40 when any afterschool program will be dismissed.**
3. Please use the visitor spaces designated in the faculty parking lot during the day if you are picking up your child for an early dismissal. This parking lot is **not for before or after school** drop-offs or pick-ups.
4. Periodically, a parent may need to get their child's car during the day. Please check with the office before entering student parking during the school day.
5. **Do not drop off or pick up students on the highway. This is an extremely dangerous area.**
6. Student parking permits are required on all student vehicles. Senior parking is closest to the building. Underclassmen (10-11) park closest to the football field. Please fill in one space at a time.

Thank you for your assistance and cooperation in making our parking/transportation areas safe and secure for all!
